

The **C&K** OEM Powertrain Program

Gold-Standard Parts Without the Gold-Standard Prices

The extraordinary success of C&K's OEM Parts Portal gave birth to special Powertrain programs for vehicles made by Ford Motor Company and Chrysler Corporation. Offering exceptional savings on Original Equipment powertrain components, these programs feature fast delivery and 3-year/100,000 mile parts and labor warranties.

Ford and Motorcraft Powertrain Distribution Program

Unique access to Ford's National Powertrain Network allows C&K to offer special savings on OE remanufactured engine and transmission assemblies for all Ford/Lincoln/Mercury/Mazda vehicles. In addition, direct shipping from the closest national warehouse further reduces both shipping time and expense.

- All gas engines and transmission assemblies carry 36 month/100,000 mile warranty from date of installation. Ford covers 100% of all parts and labor at approved warranty reimbursement rates.
- All diesel engines carry a 24-month, unlimited mileage warranty from date of installation.
- Labor reimbursement is calculated using Ford Labor Times Standard hours, multiplied by the nearest Ford Dealership's warranty labor rate, or the installing repair facility's labor rate, whichever is less.
- C&K will deliver all assemblies within 24-48 hours. Core retrievals are scheduled within 48 hours of delivery.

These parts are **exactly** the same as those supplied by authorized dealerships, and can be ordered by VIN, application, or OEM part number. C&K's web site, www.ckautoparts.com, features a convenient Ford/Motorcraft pricing chart as well as Mopar engine and transmission pricing catalogs.

Mopar Powertrain Distribution Program

Direct access to Chrysler's Mopar powertrain distribution system affords C&K the ability to offer reduced pricing on OE remanufactured engine and transmission assemblies for all Chrysler/Dodge/Plymouth/Jeep vehicles. In addition, direct shipping from the closest national warehouse greatly reduces shipping time and cost.

- All gas engines and transmission assemblies carry 36 month/100,000 mile warranty from date of installation. Chrysler covers 100% of all parts and labor at approved warranty reimbursement rates.
- C&K's realtime, electronic access to inventory at all national warehouses allows for immediate and accurate shipping estimates.
- Labor reimbursement is calculated using Chrysler Labor Times Standard hours, multiplied by the nearest Chrysler Dealership's warranty labor rate, or the installing repair facility's labor rate, whichever is less.
- C&K will deliver all assemblies within 24-48 hours. Core retrievals are scheduled within 48 hours of delivery.

In addition, for every Mopar engine or transmission supplied directly to a Chrysler/Dodge/Jeep dealership through C&K, C&K will contribute \$100 directly to the dealership, helping streamline the core retrieval process and aiding any negotiations to bring in the part. In some cases, this \$100 combined with any VSC Administrator-allowed markup affords the dealership greater profit than supplying the part. *Everyone wins!*
